-A Manchester friend of the RE-FLECTOR, Mr. Charles Vickers, who has just returned from an extended trip through the far northwest writes us: "It may be news to the friends of Dan Rudy to hear that he is superintending an Indian reservation and is principal of the school on an island of the Pacific ocean near Puget Sound, Washington state. I met the gentleman there and he seemed in fine spirits." No danger but what Dan will light on his feet wherever he may

A Pleasant Surprise.

Yesterday being the birthday anniversary of Miss Ella Tobias, her classmates, the sophomores, pleasantly surprised her at her home on Enterprise avenue. The evening was spent in social games, which were followed by an elegant supper. After singing several class songs the gay party dispersed at a late hour wishing Miss Ella many happy returns.

COUPONS OF THE GAS BONDS TAKEN FOR TAXES.

The City Compelled to Take Them on the Union Pacific Tax-The Repudiators Are Angry but it Availed Naught-The Law's Decree.

There is excitement among the repudiation element of the city (including the mayor) which has been claiming that the refunding bonds issued on account of the gas well venture were jllegal and need not be paid, though no paper of the city except the Cedar street Wobbler has so stated. A decision was rendered in Ottawa county on another kind of gas bonds but such as Abilene issued have never been deto the contrary notwithstanding.

The state statutes declare that coupons of any city or county bonds shall be taken as legal tender in payment of taxes. When the Union Pacific city taxes were paid it was found that the company in some way had secured \$150 worth of Abilene's gas bond coupons and turned them in as cash. They were so taken by the county treasurer and charged to the city's account according to law. The city officers have just discovered it and some of them | H. G. Webb, of Columbus, for Vincent have raved and caved around today on account thereof. It is of no use to grumble, however, as the coupons are paid. Repudiation don't go, gentlemen. If the courts declare the bonds illegal all right; otherwise it is business to take our medicine.

The Dynamite Investigation Well Under

Way-The House and Scuate Still at Outs-Free Text Book Bill Passes the House. TOPEKA, Kan., Feb. 25 .- The Coffeyville investigation is at last in progress. Yesterday afternoon the first session of the committee was held, at which witnesses were examined. H. M. Upham, the express agent at Coffeyville at the time of the explosion, his wife and daughter, Mabel, were examined. Upham was the principal witness. He carefully detailed the circumstances of the receipt of the mysterious box and his taking it to his home for safe keeping. When asked if he knew the cause of the explosion he answered "No." Considerable attention was given court has ever so decreed and no news- to the fact that Upham was an amateur photographer and had recently built a small dark room for the developing of pictures. He told of the chemicals he had there, but claimed that none of them were explosives. It was in this room that he placed the box, and clared other than legal, the repudiators | it was there that his wife and daughter had gone to watch him developing a

The senate gave the house a sly cut yesterday afternoon. Some ten days ago the house voted that the use of legislative hall be given Samuel Gompers, president of the Federation of Labor, for an address. Yesterday morning the house rescinded their action, because, it is generally believed, the federation is a non-partisan organization. The senate on motion of Governor Osborn, and without any request from Mr. Gompers who was in the city, tendered the senate chamber for his address. Thus the interesting and kindly exchange of courtesies between the two houses continues and will continue until the session closes. It were needless to add that the public business in the mean time is being greatly expedited.

In the house the printing bill introand of grand officers. The excursion duced by Rice and Willard was accepted sented by a majority of the printing committee. The bill was made a special order for Thursday. It makes reductions of about 30 per cent. from existing rates, and provides for the contract system after the constitution can be amended.

> The Commercial association of Kansas City, Kan., sent some resolutions to the senate yesterday morning. They protest strongly against the radical financial legislation that has passed the house and earnestly request that the senate and governor see to it that these In the alliance caucus the resubmis

sion question was considered. The exact action taken is not known, but it is generally believed to be adverse to Douglass' resolution providing for resubmission. That resolution has been made a special order for Thursday.

The free text book bill passed the house yesterday afternoon by a vote of 71 to 40. Some of the people's party members joined the democrats and republicans in opposing it. The bill of the senate codifying committee will soon come over to the house, and the differences between the two bills will be so great that a conference committee will be a necessity. In all probability this will result in killing both bills.

The Kansas Fraternity in Session at Hutch-

HUTCHINSON, Kan., Feb. 25.-The alliance editors of the state met here vesterday and organized the reform press association of Kansas, with the following officers: President, W. A. Peffer of Topeka; vice-president, A. C. Pattee of Salina; secretary and treasurer, S. McLallin of Topeka; executive board, D. T. Armstrong of Great Bend, C. Vincent of Arkansas City, and A. H. Harris of Iola.

The resolutions passed congratulate Kansas on the formation of the people's party; demand a national party and forever sever all ties with either of the other parties; congratulate the legislature on electing Judge Peffer senator; demand that all classes of labor be accorded equal privileges in the people's party; disclaim any attempt at repudiation of debts, and demand the passage of the service pension bill by congress. Judge Peffer addressed a large audience at the close of the meeting and was given a warm reception. The next meeting will be held in Salina in Octo-

The Stories About Van Zandt. Paris, Feb. 25.-The friends of Marie Van Zandt are greatly worried and indignant over the stories emanating from St. Petersburg that she was intoxicated while taking part in an operatic performance there recently, and that she substituted one song for another. Marie Van Zandt's father asserts that the stories originated with a rival, whose motive is to prevent the American songstress from going back to the United States next winter.

Tornado in North Carolina. NORFOLK, Va., Feb. 25 .- A tornado swept over Sunbury, Gates county, N. C., Saturday night. The storm swept a space half a mile wide and carried everything with it. Two children were killed near Sunbury, and it is reported that a number of people were killed further east. Wires are all down and details lacking.

The majority present, who were evidently friendly to Mr. Parnell, obstructed business so much that the presiding officer at 10 o'clock declared the meeting adjourned. Although it is regarded as a republican measure, there are several western republicans who will vote against it, so that the presence of a full republican majority does not assure the passage of the measure. The only hope of getting the bill through is to secure democratic votes enough to make up for the republican defection. This is not so certain. A few democrats from the North Atlantic coast are for the bill, but those from the south are not. They do not believe the reports recently given out that steamship lines are to be run from Alabama or South Carolina ports to South America. They say the subsidy men are only trying to catch them with such stories, and they are opposed to subsidies any way.
